If the contract type will be Time and Material (T&M) labor categories, labor rates, separated profit, and estimated material costs must be included in detail.

In addition, although price may not be the most important factor, it is still very important to the City of Colorado Springs. The Offeror's pricing must be competitive as compared to the budget amount, market pricing in the industry, and the pricing of other Offerors. It is highly recommended that the Offeror provide sufficient content and detail to answer completely the following questions.

1. How does the price compare to the industry competition?
2. If low, is it unrealistically low?
3. If high, is there demonstrated added value for the additional cost?
4. Is the price itemized, so that it is clear how the cost was built? If so, do the costs look appropriate for the task?
5. Does the Offeror leave applicable costs out of the calculations? For instance, some will say travel is not included and will be an extra cost. This should be considered when comparing to other Offerors.
6. Are there additional costs not addressed that the City would incur if the Offeror were awarded the contract? If so, include those costs when comparing to the budget amount and the competition.

2.6 PROPOSAL PRESENTATION

Presentation is an important factor. Offerors should provide a highly professional product, which is complete, accurate, easily understood, and effectively presented.

1.3 SELECTION COMMITTEE

A selection committee will review all proposals. Through this process, the City will determine which proposals are acceptable or unacceptable. The City will notify, in writing, the Offerors whose proposals are deemed to be unacceptable. Those Offerors offering proposals deemed to be acceptable by the City will be evaluated and scored by the selection committee. This scoring will determine which Offerors are considered to be in the competitive range and may be the basis for an award decision without further steps.

If the selection committee elects not to award based upon evaluation scoring, it may engage in a forced elimination process. To inform this process, it may require oral presentations or interviews with the Offerors considered to be in the competitive range. If oral presentations or interviews are conducted, they may also be scored, or they may simply be considered as information supporting the forced elimination process. The selection committee may request revisions to the proposal from each of the Offerors at the conclusion of the interviews. The intent of the forced elimination process is to reach consensus. The decision will be based on all relevant factors, and based upon perception of best value. The final decision may or may not exactly reflect scoring ranking.

The City also reserves the right to request best and final offers from all Offerors at any point in the proposal evaluation process.

3.4 AWARD OF CONTRACT

It is anticipated that there will be negotiations or discussions with Offerors. However, the City reserves the right to award without negotiations or discussions. The City also reserves the right to award a contract not necessarily or merely to the Offeror with the most advantageous price. The City intends to award to the Offeror that demonstrates the best value to the City and the most substantiated ability to fulfill the requirements contained in this Request for Proposal. A contract prepared by the City will be finalized and/or negotiated with the successful Offeror. In the event a contract cannot be negotiated with the top ranked Offeror, the City may enter into negotiations with the second highest ranked Offeror, or the City may decide to call for new proposals. Immediately after the notice of award, the successful Offeror will begin planning in conjunction with the City of Colorado Springs staff (to be designated by the City) to ensure fulfillment of all its obligations. The successful Offeror may be expected to attend regular meetings as required by the City to assist in the preparation for startup.

Neither the City nor any officer, agent or employee of the City shall be in any way liable or accountable to the Contractor or the Surety for the method by which the completion of the said work, or any portion thereof, may be accomplished or for the price paid.

Where Contractor's services have been so terminated by City, the termination will not affect any rights or remedies of City against Contractor or Surety then existing or which may thereafter accrue. Any retention or payment of moneys due Contractor by City will not release Contractor from liability.

C. Termination Notice. Upon receipt of a termination notice, whether for convenience or cause, the Contractor shall immediately: discontinue all services affected (unless the notice directs otherwise), and deliver to the City all data, drawings, specifications, reports, estimates, summaries, and other information and materials accumulated in performing this Contract, whether completed or in process.

The Contractor certifies in accord with Section 8-17.5-102(1) C.R.S. that, on the date the Contractor signs this Contract, the Contractor does not knowingly employ or Contract with an illegal alien who will perform work under this Contract and that the Contractor shall participate in the e-verify program or Colorado Department of Labor and Employment program in order to confirm the employment eligibility of all employees who are newly hired for employment or to perform work under this Contract. The Contractor is expressly prohibited from using the e-verify program or Colorado Department of Labor and Employment program procedures to undertake pre-employment screening of job applicants while this Contract and any services under this Contract are being performed. If the Contractor obtains actual knowledge that a subcontractor performing work under this Contract for services knowingly employs or contracts with an illegal alien, the Contractor shall notify the subcontractor and the City within three days that the Contractor has actual knowledge that the subcontractor is employing or contracting with an illegal alien, and terminate the subcontract with the subcontractor if within three days of receiving the notice the subcontractor does not stop employing or contracting with the illegal alien; except that the Contractor shall not terminate the Contract with the subcontractor if during the three days the subcontractor provides information to establish that the subcontractor has not knowingly employed or contracted with an illegal alien. If the Contractor violates or fails to comply with any provision of C.R.S. 8-17.5-101 et seq, the City may terminate this Contract for breach of contract. But, with regard to a disability, it is not a discriminatory or an unfair employment practice for an employer to take into consideration disability if there is no reasonable accommodation that the employer can make with regard to the disability, the disability actually disqualifies the person from the job, and the disability has a significant impact on the job. The Contractor will take affirmative steps to ensure that applicants are employed, and that employees are treated during employment without regard to their disability, race, creed, color, sexual orientation, religion, age, national origin, or ancestry.  - iii. If, within thirty (30) calendar days after such meeting, the Parties have not succeeded in negotiating a resolution of the dispute, they agree to submit the dispute to non-binding mediation and to bear equally the costs of the mediation.

- iv. The Parties will jointly appoint a mutually acceptable mediator. If they fail to do so within twenty (20) calendar days from the conclusion of the negotiation period, they shall each select a mediator. The City of Colorado Springs and the Contractor agree to notify each other in a timely manner of any claim, dispute, or cause of action arising from or related to this Contract, and to negotiate in good faith to resolve any such claim, dispute, or cause of action. To the extent that such negotiations fail, the City of Colorado Springs and the Contractor agree that any lawsuit or cause of action that arises from or is related to this Contract shall be filed with and litigated only by the Colorado District Court for El Paso County, CO.

EXHIBIT 8 – DATA SECURITY RIDER

[OFFEROR] acknowledges and agrees that data and information to be provided to [OFFEROR] or otherwise received, stored, processed, hosted, managed, or used by [OFFEROR] during performance of this Agreement is categorized/classified as City of Colorado Springs (City) Public Data and Information under this Agreement or by laws and regulations. The following requirements apply to applications (including Cloud applications and subscriptions, Hosted/Managed services, and web sites/interfaces) used by the City, all devices, and infrastructure to be connected to the City network or that otherwise document, contain, or process City's data and information on the City's network or accessed through other means.

A. STANDARDS

1. Login Credentials/Passwords

True agrees to align all credentials (passwords) with the minimum complexity requirements as outlined in the City's Password Policy. If supported, [OFFEROR] agrees to utilize the City's approved single sign-on/multi-factor authentication (SSO/MFA) capabilities when technically feasible.

Minimum credential (password) complexity requirements for all account types (if the vendor is accessing the City Information Systems):

A. Passwords must be changed every ninety-(90) calendar days or in one of the following situations;

1. In the event an account is compromised
2. Or an authorized user loses authorization to their account
3. Exceptions to this period will be granted only by the approval of the City's Chief Information Security Officer (CISO)

B. Minimum password length of 10 characters

C. The password will not be a dictionary word or proper name

D. The password will not be the same as the Userid / Account Name

E. The password will not be displayed when entered (must be shadowed)

F. User passwords shall not be shared with anyone and will be known only to the individual user. This includes the IT Service Desk, administrative assistants, managers, co-workers, family members, and friends.

G. All passwords are to be treated as sensitive information.

2. Data/Information Classification and Protection

Encryption of data and information designated or described in Agreement as Sensitive or Restrictive or otherwise subject to information protection.

A. [OFFEROR] agrees to apply industry standard encryption protocols to encrypt the City's data and information while at rest and in transit. The encryption method employed to satisfy the 'at rest' requirement must be sufficient to protect against unauthorized access/use of the data while the system storing/processing the data and information is in use (e.g. transparent database, field encryption). Encryption methods designed to render unmounted/inactive data unreadable to unauthorized parties (e.g. full-disk encryption) will only satisfy the 'at rest' requirement for stored/offline backups.

B. [OFFEROR] agrees to immediately disable and discontinue use of any encryption protocol, cipher, algorithm, or other method that is listed or described in any security monitoring organization's list as compromised or suspected to have been compromised (e.g., lists maintained by NCCIC, US-CERT, etc.).

C. [OFFEROR] agrees to disable all encryption protocols, algorithms, cipher suites, or security configurations that do not meet the City's minimum encryption and configuration requirements.

D. [OFFEROR] agrees to protect encryption keys and all backups of the City's data at a level equal to or exceeding the encryption level of the data being encrypted. Encryption keys shall not be stored in the same location as the data.

E. [OFFEROR] agrees to provide the City with the encryption keys or a key escrow for all City data that is encrypted.

F. [OFFEROR] agrees to only use methods meeting or exceeding the City's minimum encryption and configuration requirements (shown below):

1. TLS version 1.2 for all Internet traffic using HTTPS method
2. AES 128 for all symmetric encryption
3. 2048 bit keys for all asymmetric encryption
4. IKEv2 and PFS for all IPsec VPN tunnels.
5. X.509 standards, SHA-2 hashing, and an approved independent authority as issuer for all certificates.

3. Location of Data

[OFFEROR] agrees that the City's data and information must remain within the continental United States (U.S.) at all times. [OFFEROR] may alter the specified location within the U.S. of the City's data with ninety-(90) day advance written notice to the City. Primary/alternate data centers must be geographically separated.

B. AUDITS AND CYBER SECURITY TESTING

1. The City has the right to audit and/or test applications and devices delivered hereunder prior to acceptance and periodically thereafter during performance of this Agreement.
2. [OFFEROR] agrees to undergo such acceptance and periodic security audits by certified third parties occurring at least annually. [OFFEROR] agrees to provide, within 60 days after the audit, a get-well plan with a specific mitigation timeline to be agreed upon by the City. The City reserves the right to concur that the mitigation plan, to include timeline, was acceptable. City may request, and [OFFEROR] shall provide, a copy of the results of this audit at any time during the performance of this Agreement. The initial acceptance audit requirement may be satisfied by providing a SSAE 16 or 18 or SOC 2 Type 2 report or equivalent, and such report shall be provided to the City annually. [OFFEROR] also agrees to provide a SOC 2 Type 2 report annually.
3. In addition to audits, [OFFEROR] agrees to allow security testing and to provide valid (non-administrative) credentials, if applicable, for use during security testing. Security testing will consist of vulnerability and/or web application scans and/or manual testing conducted by the City's Cybersecurity personnel or third party vendor and identified issues will be communicated to [OFFEROR] for remediation or mitigation. Security testing will not consist of 'penetration tests' involving exploitation beyond the extent necessary to prove the presence of the identified vulnerability/security misconfiguration. The City reserves the right to determine if the remediation or mitigation measures are acceptable.
4. In addition to remediating or mitigating issues prior to acceptance, [OFFEROR] will also be responsible for remediating or mitigating any vulnerabilities or configuration issues identified through subsequent security tests conducted in accordance with this Agreement. [OFFEROR] will have fifteen-(15) days from the date of testing to remediate critical vulnerabilities or issues identified as such by the City, and sixty-(60) days from the date a vulnerability or configuration issue is identified to remediate/mitigate other vulnerabilities or configuration issues identified through security testing. The City reserves the right to determine if the remediation or mitigation measures are acceptable.

C. SECURITY RELATED PATCHES AND MAINTENANCE

As soon as reasonably possible after they are tested and determined to be safe for installation, but not to exceed 30 days from issuance, [OFFEROR] agrees to apply patches to systems/solutions that comprise the service(s) that they provide and systems/solutions they manage on behalf of the City for "critical" software / firmware vulnerabilities that are revealed and addressed by a supported patch. [OFFEROR] will categorize the urgency of application as either "critical" or "non-critical" in nature based on industry recommendations and applicability to their product/solution. Application of

“non-critical” patches, including service packs, will be implemented according to [OFFEROR]’s business standards.

D. BREACHES

[OFFEROR] agrees to; provide Notice to the City of any access, acquisition, use, or disclosure of the City’s data in a manner, which compromises the security, or privacy of the data (“breach”), within forty-eight (48) hours of discovery. Notice shall be made to both the City’s Representative in the manner provided for legal Notices under this Agreement, and by email to the City Cyber Security Team at the following address: ITCyberSecurity@coloradosprings.gov

In its initial Notice and when more information becomes available, [OFFEROR] shall state to the extent known:

1. the details of the event that caused the breach,
2. whether the breach involved exposure, scanning, exfiltration, destruction or modification, or other misuse/misappropriation of the data,
3. the amount and nature of the data involved in the breach,
4. the persons/parties who gained access to the data, to the extent known (subject to an ongoing duty of disclosure as information is developed), and
5. [OFFEROR]’s plan to mitigate the cause of the breach.

E. DESTRUCTION OF DATA/RECORDS/INFORMATION

1. [OFFEROR] agrees to sanitize all media containing City’s data/information in accordance with NIST SP 800-88 media sanitization guidelines [media containing City’s Sensitive data must be sanitized by ‘Clearing’ at a minimum; media containing City’s Confidential data must be sanitized by ‘Purging’ at a minimum] and any City Records retention requirement to include exemptions for legal holds.

2. Upon termination, cancellation, expiration, or other conclusion of the Agreement or upon expiration of the specified retention period of any applicable laws, regulatory requirements, or retention schedules, [OFFEROR] agrees to return all City’s data and any other information in [OFFEROR]’s custody provided to enable performance of this Agreement (such as infrastructure or context diagrams, project plans, etc.) or sanitize the media [see requirements above] containing the data/information based upon City’s preference. Promptly after completion, [OFFEROR] agrees to provide the City with a certificate confirming the date and method of destruction of the data.

F. Data Storage, Replication and Backup

1. [OFFEROR] shall backup all City data and information from the production server for data recovery purposes. In addition, [OFFEROR] shall also backup all City data to a separate geographically isolated location for disaster recovery purposes. City’s data shall be stored for a minimum of thirty-(30) days at the production facility and at the

disaster recovery facility for a minimum of ninety-(90) days. Upon City's request, [OFFEROR] shall make available to City a copy of City's data with twenty-four (24) hour advance written notification.

2. [OFFEROR] shall ensure that City's data accessed by or disclosed to [OFFEROR] is stored, processed, or maintained only to the extent required for the performance of [OFFEROR] support services under this Agreement. [OFFEROR] shall ensure that City's data and information is not replicated or stored on any unencrypted removable/portable storage devices.
