

## 2050 Regional Transit Plan & Specialized Transportation Plan

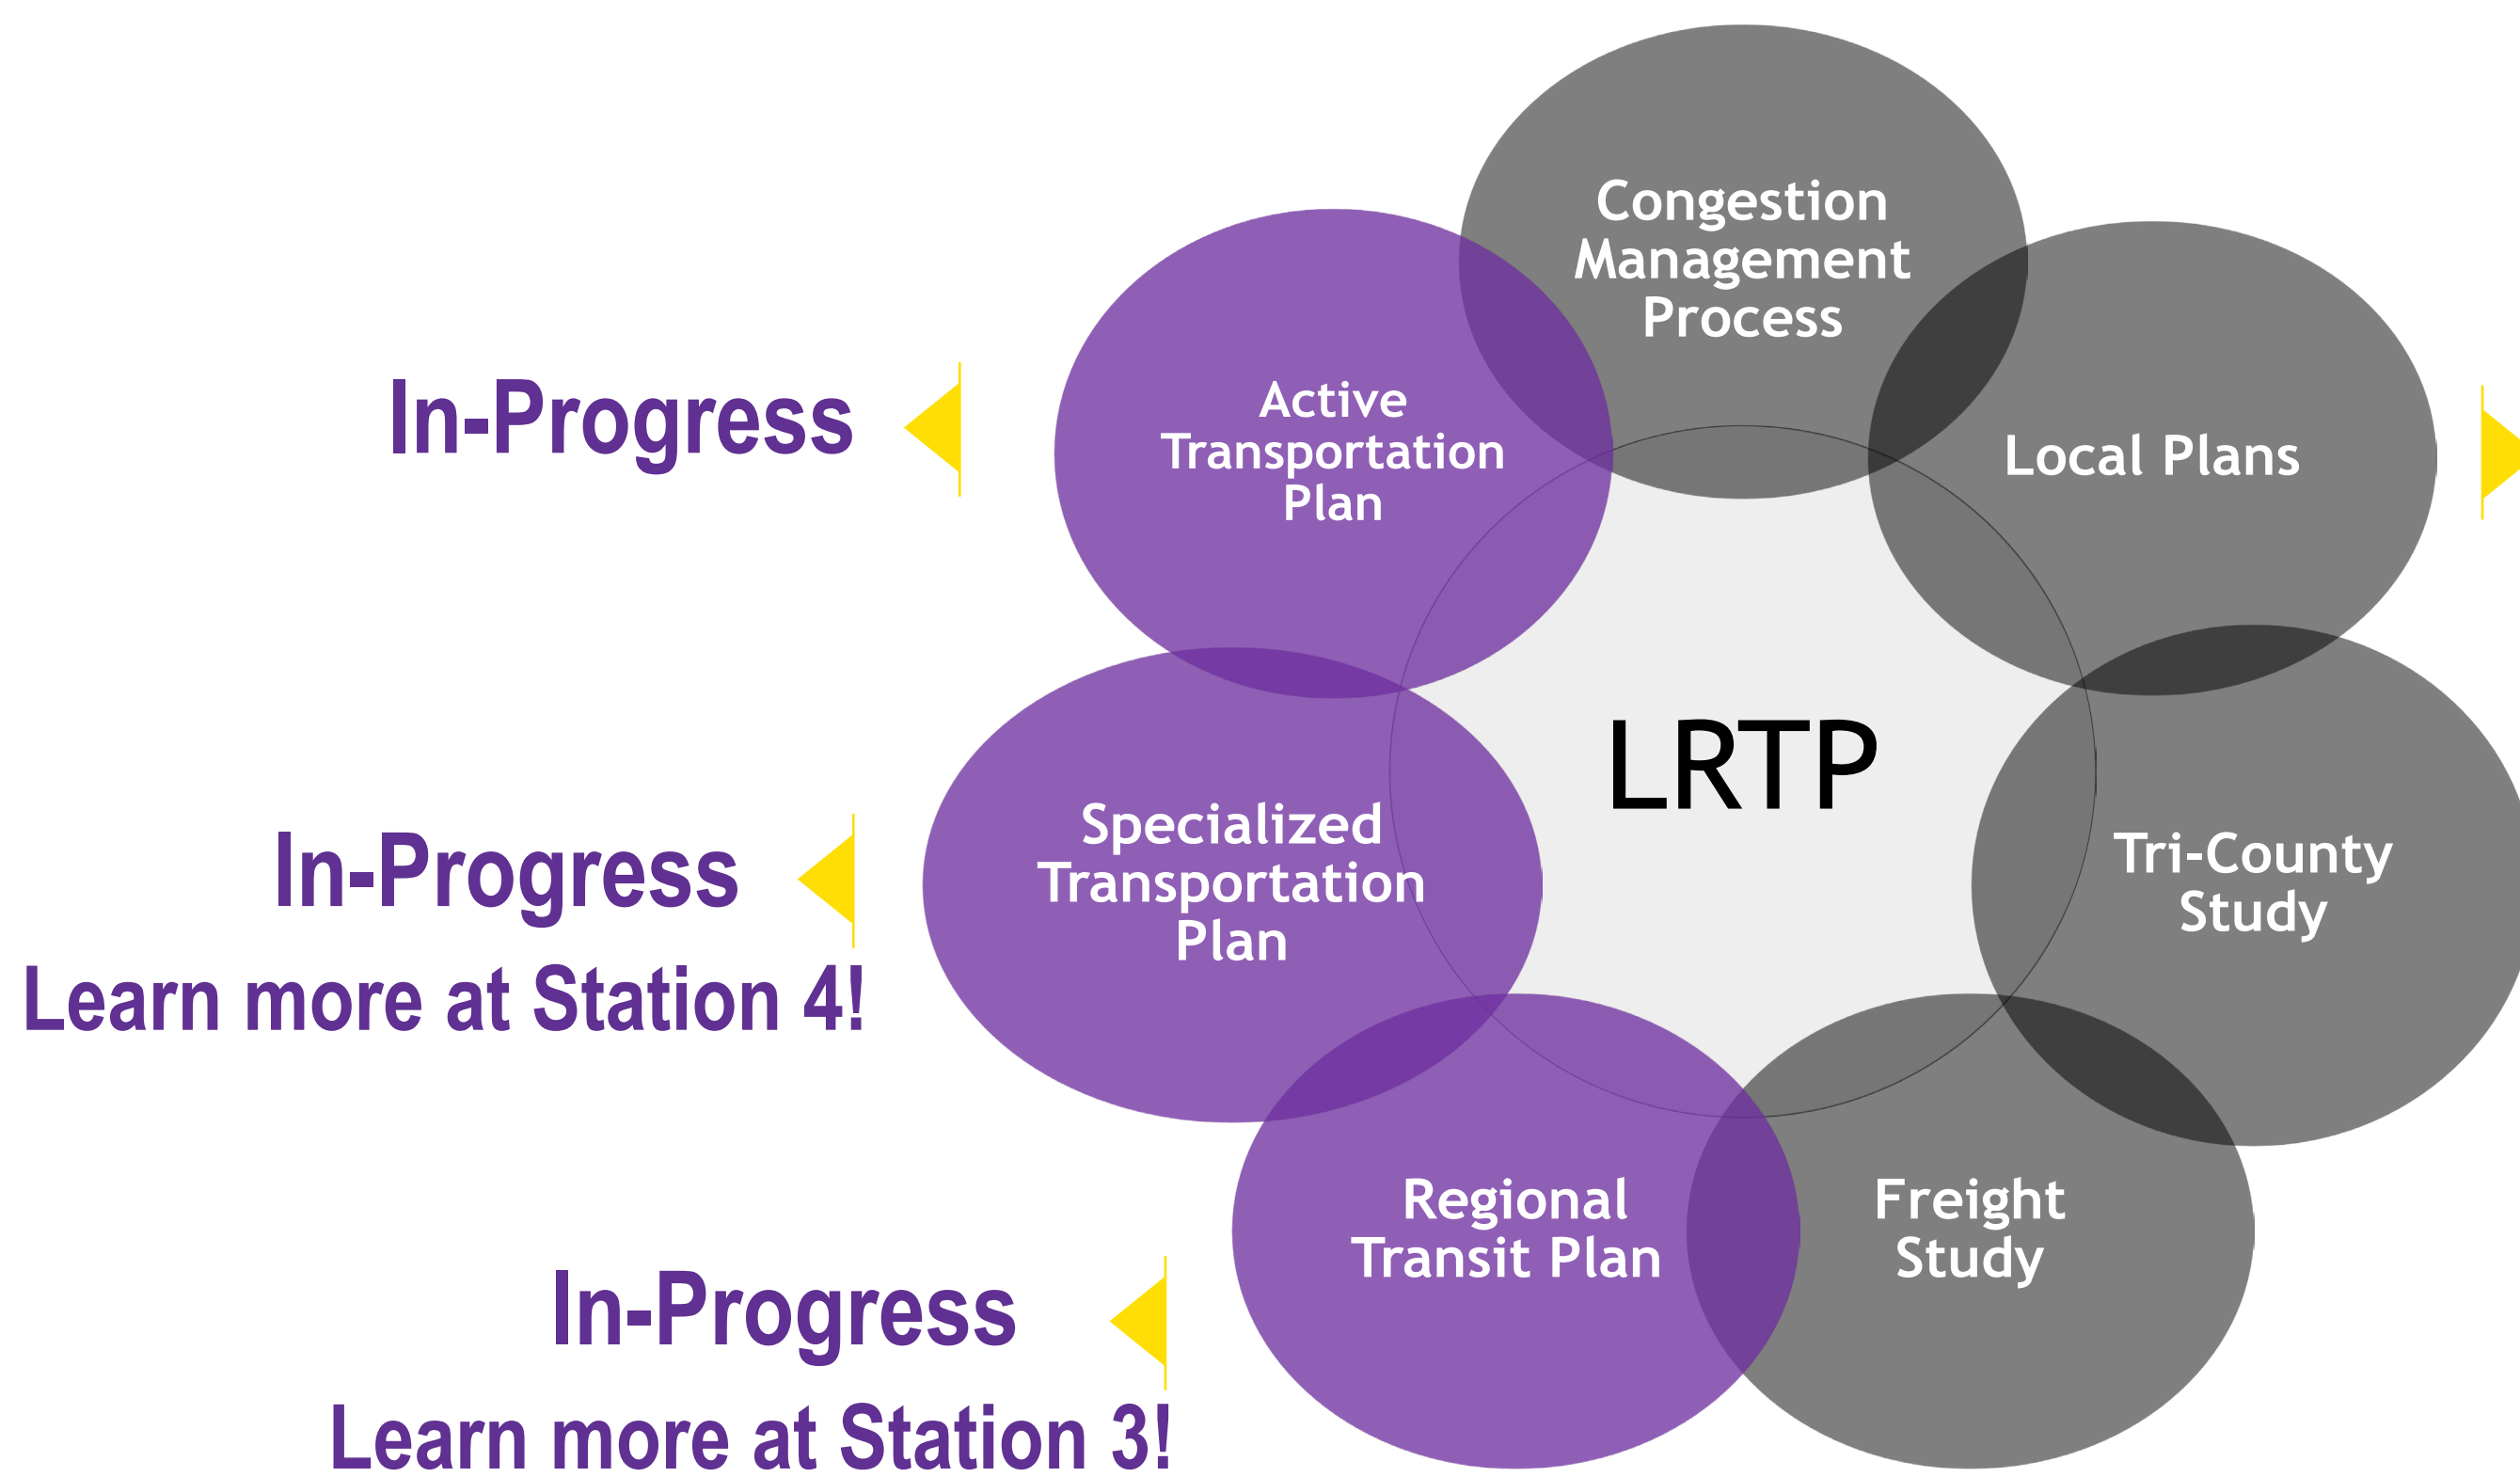

# ▶ LONG RANGE TRANSPORTATION PLAN

Pikes Peak Area Council of Governments (PPACG) is leading the regional **2050 Long Range Transportation Plan (LRTP)**. The LRTP is a strategy for the Pikes Peak region that identifies current and future transportation needs and outlines transportation investment over the next 25 years. The plan is updated every five years.

### ▶ The LRTP Components

The **LRTP** is an umbrella plan influenced by local and tri-county planning effort and the plan's various chapters or component plans. The plan intends to pull information from these efforts and provide overall coordination.

The **LRTP** works with **local jurisdictions**. Each jurisdiction conducts its own planning effort, which includes public engagement.

Local projects are then submitted to the **LRTP**, and evaluated for project selection.

### ▶ Upcoming Fall Engagement

PPACG plans to host a public comment period and public open houses to review the **Draft 2050 Long Range Transportation Plan**.
